

The DECT Handset Portfolio

On-site DECT Mobility Solution

Feature-rich, reliable, and durable, the Spectralink DECT 7000 Series handsets have been designed with features and tools to help you do the things you need - like highest quality voice connections, backlit displays for dimly lit areas, panic button, two-way text messaging and more.

Spectralink 77-Series

Empowers health-care professionals to be mobile while still within quick reach in critical situations

- Resistance to disinfectants and easy clean keypad membrane reduce the risk of spreading bacteria and diseases
- Tear-off string and alarm button increase security for personnel in high-risk environments
- Automatic alarms (if man down, no movement or running is detected) increases personal safety

Spectralink 76-Series

Meets the needs of a mobile workforce in industrial and manufacturing environments

- Instant notifications make users aware of potentially hazardous situations
- Lone workers can send alarms in case of emergency
- Notification in case of machine failure reduces production downtime
- Automatic alarms (man down, no movement and running detector) increases personal safety and security

Benefits

- Maximize employee availability using feature rich, reliable, and durable devices
- Deliver high-quality and secure voice communications across all enterprise environments
- Dramatically improve responsiveness and productivity of mobile workers
- Increase business efficiency by integrating application systems and business processes with mobile devices
- World-class application partner program for alarms, alerts, and Nurse call systems catering to key vertical workflow needs
- Specifically designed for key vertical markets to protect staff with alerts and alarms for man down or staff duress

Spectralink 75-Series

The preferred choice for mobile workers in office environments

- Specialized features for office environments
- Large color screen and intuitive menu structure
- Combines elegance and durability
- Increases productivity and optimizes workflow

Spectralink 72-Series

Meets the demands for mobility in a range of specialized hospitality, retail, and office working environments

- Leverage wired headset & vibrate option to give more freedom to workforce
- Delivers exceptional voice quality without any background noise, echo, delay, or interruptions
- Resistant to drops and shocks
- Allows mobile employees to work more efficiently with extended battery life and quick recharging

Spectralink 7502

Increases productivity for mobile workers in small office environments

- Specialized features for general office working environments
- Large color screen and intuitive menu structure
- Supports wired headsets
- Targeted messaging (24 Char)
