

Enabling Mobile Workers

with Zoom Phone

Spectralink's native voice interoperability with Zoom Phone enables a simple and reliable end-to-end mobile enterprise cloud solution by providing quality voice and constant communication for your mobile workforce.

As organizations make the transition to cloud-based Unified Communication systems, Spectralink empowers enterprises to extend platforms like Zoom Phone to equip mobile workers for streamlined team collaboration, secure connectivity, and continuous communications. With large scale and highly redundant solutions for DECT, and native voice integration for Versity enterprise-grade smartphones and 84 Series feature phones, we provide a dynamic range of products to meet your communications needs. Spectralink enterprise-grade devices, together with the Zoom Phone platform, provide unmatched voice quality to ensure clear and reliable communication for all mobile workers in voice-critical environments.

Spectralink makes mobility work for your enterprise by enabling mobile workers to connect and communicate with crystal clear voice communication. With Zoom Phone on purpose-built Spectralink devices, mobile workers are provided with access to the same communication and collaboration tools as office and remote workers securely uniting voice, data, and people for more efficient collaboration across the entire organization. Spectralink also offers AMIE® (Advanced Mobile Intelligence for Enterprise) for centralized, cloud-based fleet management to complete your mobile solution.

Spectralink's Mobile Solutions Certified with Zoom Phone

Spectralink Versity 92 and Versity 95/96 Wi-Fi Enterprise-grade Smartphones

Spectralink's Versity Family of Wi-Fi enterprise-grade smartphones are Zoom Phone certified and provide mobile workers with constant access to data and voice for uninterrupted communication. For high-quality voice calls, Zoom Phone integrates with the Versity native SIP dialer application. Versity Smartphones are also compatible with the Zoom Android application for additional communication channels including, video, meetings, and chat. Spectralink's newest durable smartphone, the Versity 92, is an ideal solution for your retail associates and non-clinical team members in healthcare environments. The more powerful Versity 95/96 smartphone continues to be the solution of choice for healthcare clinicians and store operation team leads with more data-intensive workflows.

Spectralink 84 Series Feature Phone

The 84 Series is a durable and reliable feature phone with physical buttons and a simple menu interface that provides a dependable user experience in all environments. Zoom Phone integrates directly with the 84 Series SIP dialer providing a crystal-clear and reliable voice experience on the move. Designed for deskless workers across many industries including healthcare, retail, and manufacturing, the 84 Series unites the most critical elements of workplace communications within a single mobile device.

Spectralink Virtual/200/400/6500 IP-DECT Servers and 7000 Series DECT Handsets

The Spectralink DECT portfolio is a flexible and scalable solution that offers cost-effective and secure communication to mobile workers. The Zoom Phone certification validates the calling functionality of Spectralink DECT Virtual/200/400/6500 Servers and handsets with Zoom Phone for dependable communication across your enterprise. The entire DECT 7000 Series handsets portfolio is Zoom Phone Certified, so that you can choose the right handset for your employees based on their specific requirements and needs. Spectralink DECT handsets place unmatched voice quality into the hands of frontline workers for uninterrupted communications in manufacturing, retail, hospitality, and elderly care environments.
