

Spectralink Services

Spectralink Services help you make the most out of your mobile experience, and optimizes your business results and ROI.

A Full Portfolio of Enterprise Mobility Services

The right mobile solution and partnership can reduce costs, ease the strain on your internal resources, and break down barriers between you and your mobility goals. At Spectralink, we provide comprehensive enterprise mobility services to help you manage these issues and maximize the power and potential of mobility for your organization.

From initial solution design through expert deployment, optimization, and maintenance, we work in partnership with you to deliver the full depth and breadth of support to achieve your goals and maximize your mobility success. **We ensure it just works when you need it.**

Our technical expertise is unrivalled since we live and breathe our products every day which means we are the most qualified to help you. This deep and complete understanding of our solution also means if a problem occurs, we can help to identify and fix it faster than anyone else. In short, we ARE the Spectralink solution experts..

What are the components of Spectralink Services?

PROFESSIONAL SERVICES

Our ultra-qualified team takes care of you from the beginning and for the life of your solution. Before we even step foot in your facility, we can deliver with a detailed requirements analysis, solution design, and strategy to map our solutions to your workflows and determine how Spectralink can make mobility work for you.

This includes:

- Design services
- Deployment services
- Optimize services
- Manage services

SUPPORT AND MAINTENANCE SERVICES

With any technology, reliable technical support is a critical part of your solution's success. As your partner, we work as a true extension of your team to provide day-to-day support and maintenance services that help you maximize the value of your mobile tools and technology.

This includes:

- Technical Support
- Maintenance and Repair Services
- Software Assurance
